

Product Withdrawal Notice

Matrikon IMAC Sentinel

Jun 10, 2013

Honeywell Process Solutions announces the withdrawal from sale of the following Matrikon applications as of Jul 2013:

- Matrikon IMAC Sentinel version 2.xx
- Matrikon IMAC Sentinel version 3.xx

Existing users will continue to receive, and can renew, support from Honeywell under contract support agreement. Honeywell provides a broad range of Alarm Management products that has functionality above and beyond what IMAC offers. It is recommended that users plan for and migrate to Alarm Manager A&E (a fully featured alarm management metric and reporting application).

New installation of IMAC will not be offered unless the following three criteria are met:

1. Already an existing customer of IMAC software
2. Agree to install and upgrade all instance of IMAC to the latest version (v 3.2)
3. Agree to install centralized Alarm Manager A&E server connected to all local instances of IMAC

More information regarding Honeywell's other alarm management applications can be found here:
